## Desert Animals

These pages are designed to be used in pairs.

The first pages have the picture of the animals for you to refer to. There is a space for you to 'have a go' at spelling for yourself and a box at the bottom for tricky topic words.

The second page is your writing page. You need to write your title at the top first then think of a few sentences about your animal. Say your sentence out loud to make sure it makes sense. Write it down remembering to use a **capital letter** at the start and a **full-stop** at the end.

Choose which pages you would like to do yourself.
